

# Our Mission

Driven by the life and teachings of Jesus, our mission is to actively shape and enrich the spiritual and educational journey of students, staff, families and all people within our community. Offering excellence in learning and teaching, we embrace differences and individuality, whilst living in harmony with God's creation.

## UNPACKING THE LANGUAGE

### ***“life and teachings of Jesus”***

This is otherwise referred to as the Gospel or the Good News of Jesus Christ. The good news is that Jesus came to redeem the world, each and every person, through an unconditional love which brings the hope of everlasting life, if we only have the faith accept it.

### ***“shape and enrich the spiritual and educational journey”***

Through a holistic curriculum and contemporary pedagogy, students are challenged to grow in all aspects of their being (Spiritual, emotional, intellectual, physical and social). Meeting people where they are at on their journey, we hope to shape all the aspects of their being through enriching and engaging experiences.

### ***“students, staff, families and all people within our community”***

As a school our main focus is on nurturing the development of our students; however, we aim to positively affect all people within our sphere of influence/contact.

### ***“excellence in learning and teaching”***

In keeping with the directions of Brisbane Catholic Education, we are guided by contemporary research on best practice for learning and growth. Our education is student led, driven by data and evidence, targeted at the individual level and goal orientated using a contemporary learning approach, which aims to engage every student at every point on their learning adventure.

### ***“embrace differences and individuality”***

Believing that all people are made in the image and likeness of God, we can learn to value each person's individual and unique identity, personality, beliefs, dispositions, socio-cultural position, ethnicity and interests.

### ***“living in harmony with God's creation”***

As God ordained stewards of creation, we as human beings, have been charged with the responsibility to care for the Earth and all living things within it. We are guided by Pope Francis' encyclical letter *Laudato Si'* on Care for our Common Home.
